**^these are easiest missions, taking 10-20 minutes to complete, after completing which you will receive all the rewards**

Hard:

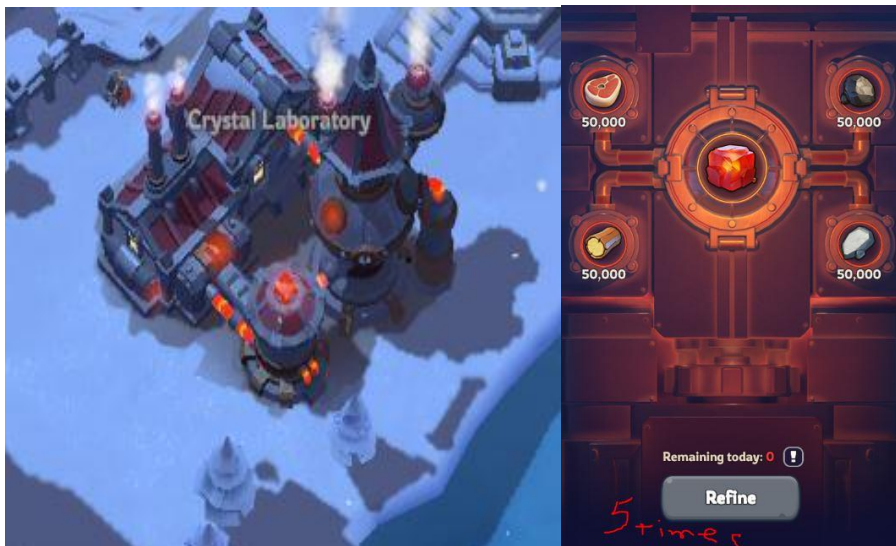

1. **Upgrade 1 buildings**
2. **Research 1 technology**

^ **Difficult missions that are not required to be completed, but if you complete them, training the soldiers is not necessary, it sometimes helps when you use the training buff and they train for 2 days**

**result - getting 10 fire crystals, skill books, a lot of heal speedups - best for free game**

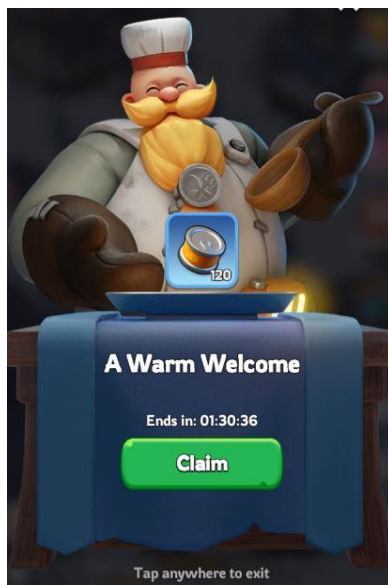

## **Crystal laboratory:**

**Every day you can receive a random amount of fire crystals in exchange for resources - 5 times.**

## Stamina:

1. Every day you get 288 stamina (chief stamina)
2. 2 times to 120 stamina every day from storehouse
3. your pet's ability

## Beast Cage (petts):

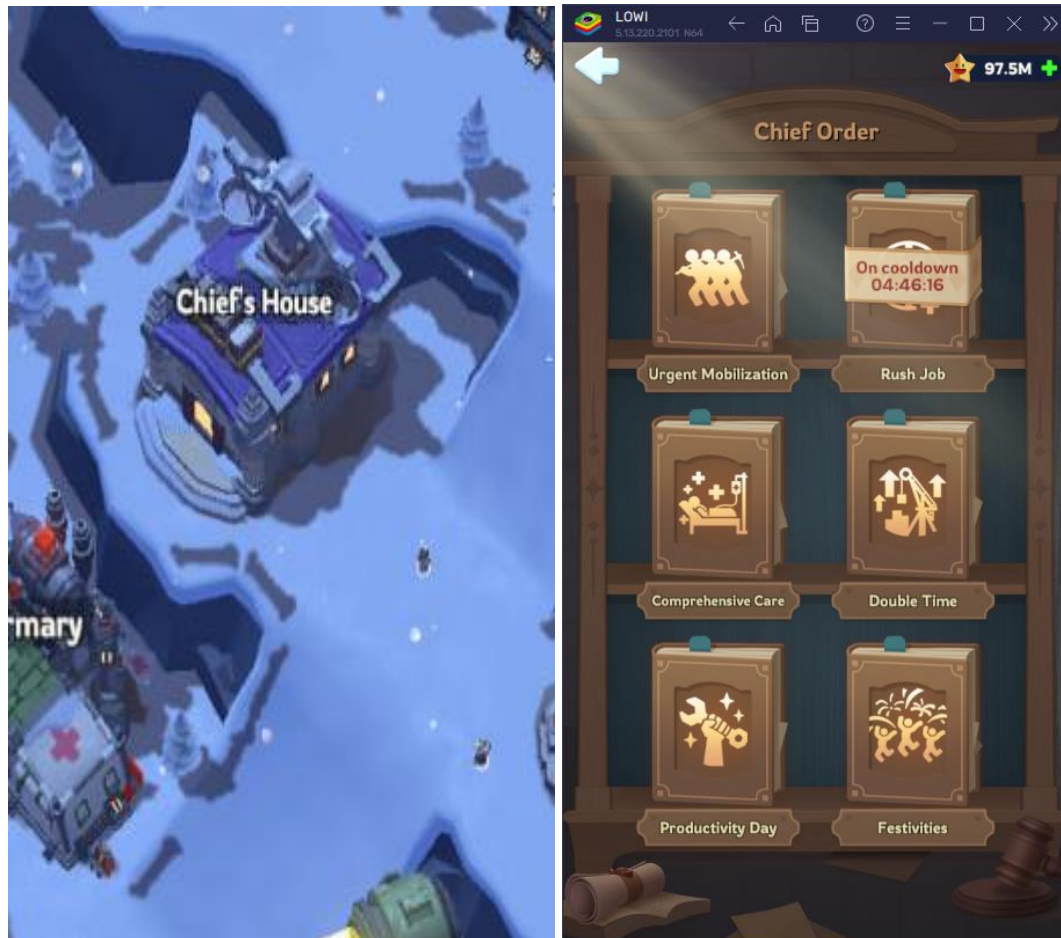

**They are very helpful in events, use them wisely  
Use them every time so that they are always on cooldown,  
but take into account upcoming events**

## Calendar:

**The most necessary thing for  
preparing and winning events is a  
calendar, it shows events 4 days in  
advance, so you always have time  
to think about how to properly use  
your things and time**

## Chief's House:

- **To obtain resources (follow the order of use as indicated), use one after another**

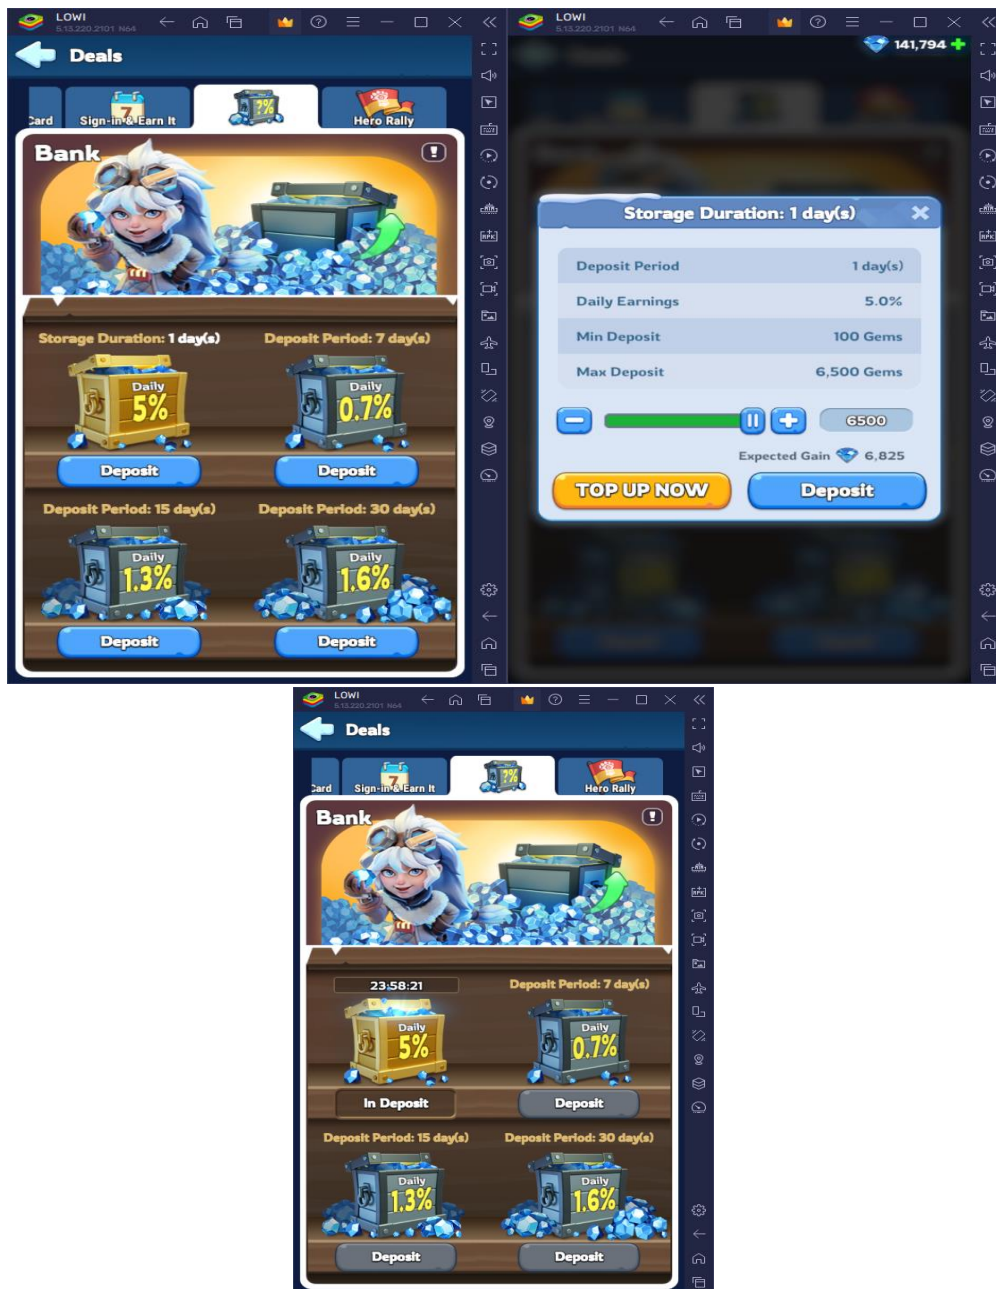

1. Productivity Day
2. Urgent Mobilization
3. Rush Job

- **To reduce construction time**

1. Double Time +20%
2. Pet Buff +5%-15%
3. Global Construction Buff (use president) +10%
4. Take buff (need send request) +10%

**There is no need to use the rest, it is useless**

## Bank:

**If you have ever made a purchase, use the bank, every day +325 crystals, I use only 5% every day 6500 send, 6825 get, easy**

**Why do we do daily missions? so you can get Mystery Badge (80)  
And why do we need so many resources?**

## Shops:

- Mystery Shop

**For free refresh you can do this 3 times a day, I refresh it to 300 crystals, look for widgets, stones or shards with a **50 % percent** discount and buy.**

- Nomadic Merchant

**I'm refresh it to 500 crystals, here you can get free speedups, teleports, etc.**

## Ultimately, your plan of action:

1. First you take all the rewards where there are red dots
2. You recall troops from gathering resources, you must send them every time you go to rest
4. Daily missions
3. You do 10 tasks at the lighthouse, at the end I always leave two tasks, so that on the new day I can always do this task right away
4. Use the chief's house to get resources (use as I indicated above) his CD is 24 hours
5. You get rid of your stamina completely by killing polar animals (after the lighthouse)
6. Crystal laboratory
7. Also, don't forget to use the pet's buff to gain stamina and resources, plus now you can get a random item
8. Use nomadic merchant and mystery shop
9. When you go rest send ur troops gathering RSS

**Regarding events such as the bear, crazy joe, and so on, I'll write a little later**
